OAK BLUFFS

Team 2 : Nick Huang, Jennifer Roh, Kelly Ruan

Home

Clients will get directed to this page once they open the app.

They can now click on the function that they are looking for.

The options are:
- Me
- Events
- Medical
- Security
- Trust

Each petal is essentially a tab

- The menu icon at the top right corner contains account settings.

Me

Clients will be directed to this page from the me petal. Here, they will see information about themselves including:
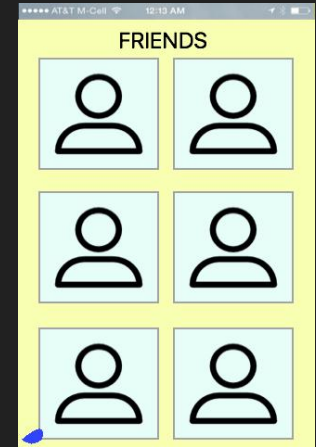

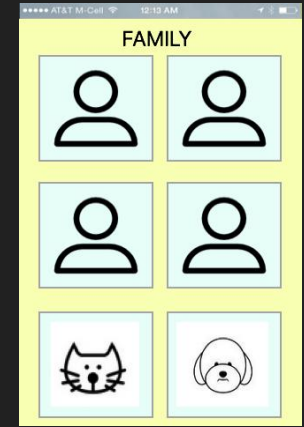

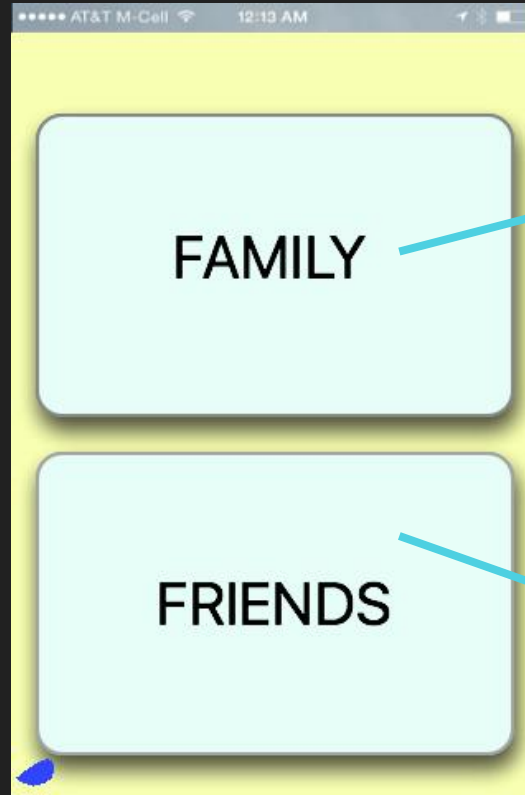

- Profile picture
- Name and age
- Address
- Location on a map to see where they are at (scroll down to see it)
  - 'Home' will be marked on the map and they can click it to find directions on how to get home

Trust

Clients will be directed to the family (which includes pets)/friends page when they click the trust petal.
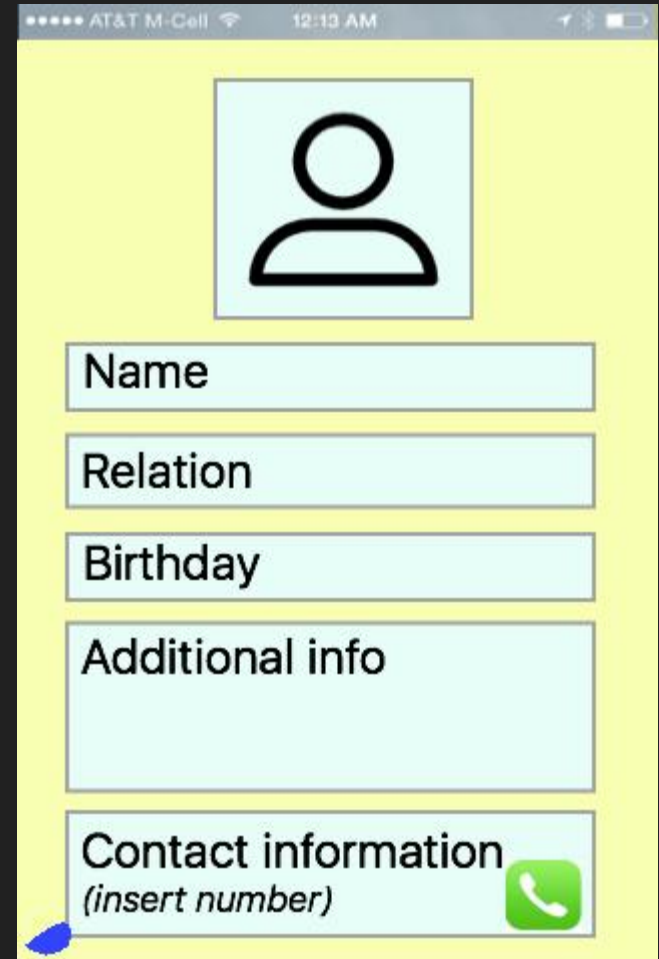

Once they click on family or friends, they will be directed to a next page with the profiles of their family/friends/pets.

-

Trust (cont.)

Once client clicks on the profile of a person, they will be directed to a page containing the following information:
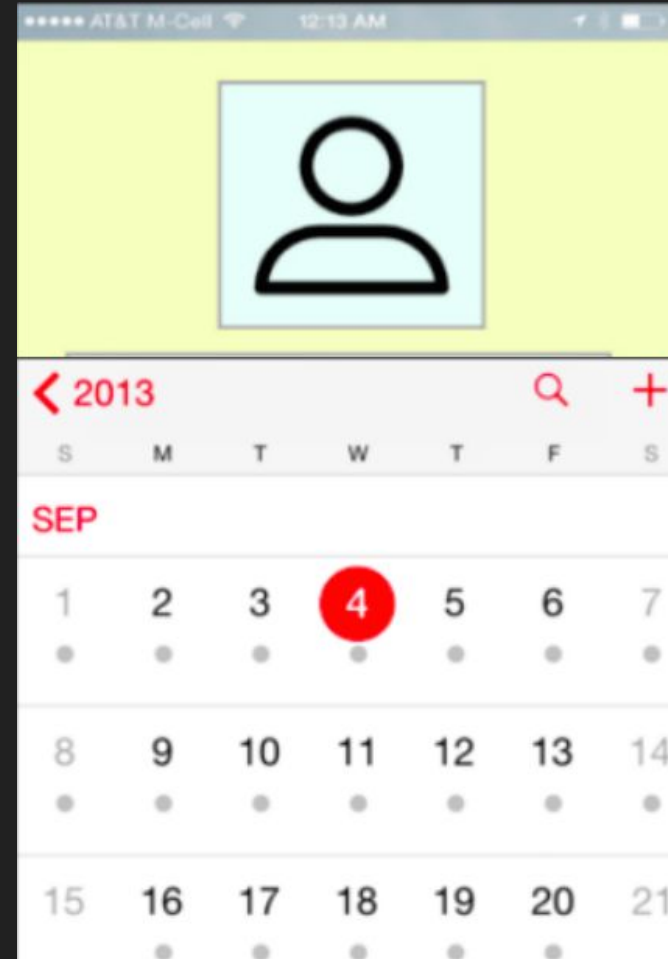

- Name
- Relation
- Birthday
- How to contact them (a call button is included)

Events/Appointments

- Personal events
- Doc appointments
- Notification alert - will remind patients a day before the event. And on the day itself, the app will remind the patient an hour prior to event.
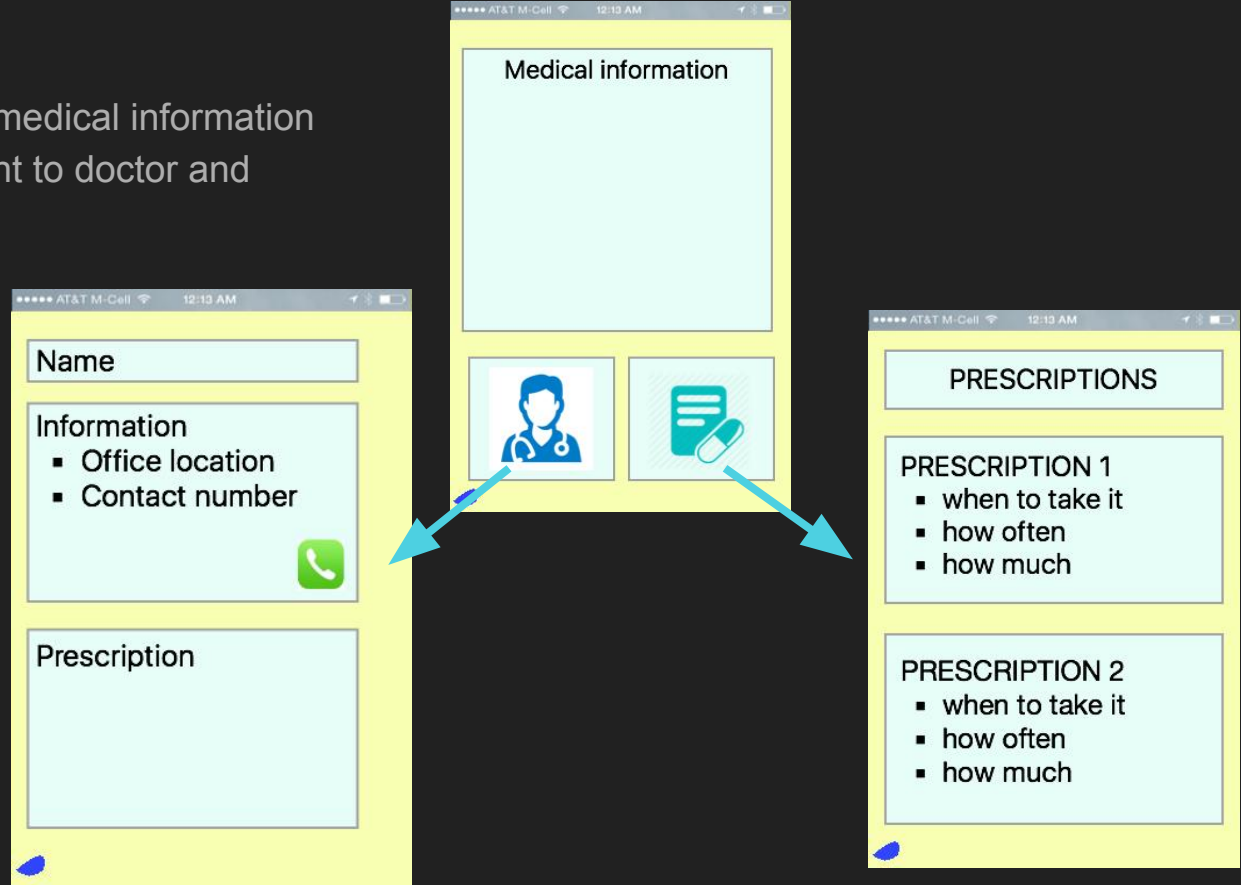

Hospitals

The first page will contain general medical information and two buttons that will direct client to doctor and prescription information.

The doctor page will include:

- Doctor's name
- Office location
- Contact number
- Prescription for client

The prescription page will include the different prescriptions and reminders on when to take it, how often, and how much.

Keys

- This page will include private information such as :
    - Social Security Number
    - Upcoming events
    - Personal Documents

When the client clicks on the section that they want, they will be able to see the files.

THANK YOU!
